

Michel Lino, graduated in civil engineering from Ecole Nationale des Ponts et Chaussées, Paris, in 1973, cofounded ISL Ingénierie in 1986. With more than 40 years of professional activity dedicated to the engineering of dams and water projects, Michel Lino is now a dam consultant, advisor to various owners and contractors, and a member of several Dam Safety panels of experts. His experience includes large dams, hydroelectric and river facilities for many owners in hydraulic and hydropower. Michel Lino is author of more than forty scientific and technical publications in the field of dam design and water projects.

He was awarded by ICOLD in Bali in June 2014, especially for his contribution to the development of Hardfill Dams Design and is currently Vice-President of ICOLD Technical Committee P on Cemented Material Dams (CMD). He served as Vice President of ICOLD for Europe for the term 2016-2019. He was President of the French Committee on Dams and Reservoirs (CFBR) from January 2017 to June 2022. In June 2022, he was elected President of ICOLD.
